Unauthorized reproduction or distribution of this report, or any portion of it, may result in severe civil and criminal penalties, and will be subject to the maximum extent possible under the law.

This report is the property of A GUSHER, Inc. and contains proprietary and confidential information. It may not be copied or disclosed without written permission. It is loaned for limited purposes and remains the property of A GUSHER, Inc., and it must be returned or destroyed on request.

The data set forth in this report was prepared using engineering principles and generally accepted practices which are judgmental in nature. The use of any data contained in this report is at the recipient's own risk.

A GUSHER, Inc. has used all methods and procedures it considers necessary under the circumstances to prepare the data in this report. A GUSHER, Inc. does not warrant the accuracy of any data in this report.

A GUSHER, Inc. shall not be liable for any direct, indirect, consequential or incidental damages, including lost profits, arising from the use of this report.

The data in this report are subject to change as additional information becomes available.

Any reserves or economic evaluations in this report are forward-looking statements. Actual results may differ materially from the results estimated or projected in this report.

Reserves and economic evaluations in this report are estimates only and should not be construed as exact quantities.

Estimates of reserves may be revised upward or downward based on future engineering or production data, economic conditions, and other factors.

Probabilistic estimates of reserves may be combined with deterministic estimates in certain portions of this report.

The recipient is obligated to review with its professional advisers any portion of this report upon which it intends to rely.

Permission to use any data in this report must be obtained in writing from A GUSHER, Inc.

A GUSHER, Inc. grants no boilerplate permission to use any data in this report.

Each user of this report is responsible for its own boilerplate compliance with boilerplate boilerplate boilerplate.
