NPD – exploration drilling result

17/06/2019 The Norwegian Petroleum Directorate has granted Aker BP ASA a drilling permit for well 25/2-20, cf. Section 15 of the Resource Management Regulations.

Well 25/2-20 will be drilled from the Deepsea Stavanger drilling facility in position 59°52'27.05" N and 02°27'29.23" E after completing the drilling of wildcat well 15/6-16 S for Aker BP ASA in production licence 777.

The drilling programme for well 25/2-20 relates to the drilling of a wildcat well in production licence 442. Aker BP ASA is the operator with an ownership interest of 90.26 per cent. The other licensee is LOTOS Exploration and Production Norge AS (9.74 per cent).

The area in this licence consists of parts of blocks 25/2 and 25/3. The well will be drilled about 20 kilometres east of the Frigg field.

Production licence 442 was awarded on 15 June 2007 (APA 2006). This is the eighth exploration well to be drilled in the licence.

The permit is contingent on the operator securing all other permits and consents required by other authorities prior to commencing the drilling activity.

See Factpages for more information about this wellbore.
