**Description**

| Type              | Text  | Date updated |
|-------------------|---|--------------|
| Development       | Mikkell is a field in the eastern part of the Norwegian Sea, 30 kilometres north of the Draugen field. The water depth is 220 metres. Mikkell was discovered in 1987, and the plan for development and operation (PDO) was approved in 2001. The field is developed with two subsea templates tied-back to the Åsgard B facility. The production started in 2003. | 14.12.2023   |
| Reservoir         | Mikkell produces gas and condensate from Jurassic sandstone in the Garn, Ile and Tofte Formations. The field consists of six structures separated by faults, all with good reservoir quality. It has a 300-metre-thick gas/condensate column and a thin underlying oil zone. The reservoir depth is 2500 metres.  | 14.12.2023   |
| Recovery strategy | The field is produced by pressure depletion.  | 28.02.2023   |

|           |  |            |
|-----------|--|------------|
| Transport | The well stream from Mikkel is combined with the well stream from the Midgard deposit and routed to the Åsgard B facility for processing. The condensate is separated from the gas and stabilised before being shipped together with condensate from the Åsgard field. The condensate is sold as oil. The rich gas is transported via the Åsgard Transport System (ÅTS) to the Kårstø terminal for separation of the natural gas liquids (NGL). The dry gas is transported from Kårstø to continental Europe via the Europe II pipeline. | 28.02.2023 |
| Status    | The production from Mikkel is governed by the reserved capacity on Åsgard B. The field is currently producing at its full potential with four wells on production. Two interventions are planned for Mikkel in 2024. A Mikkel Late Life project is in its initial phase.   | 14.12.2023 |

Net - oil equivalents [mill Sm3]

Net - oil [mill Sm3]

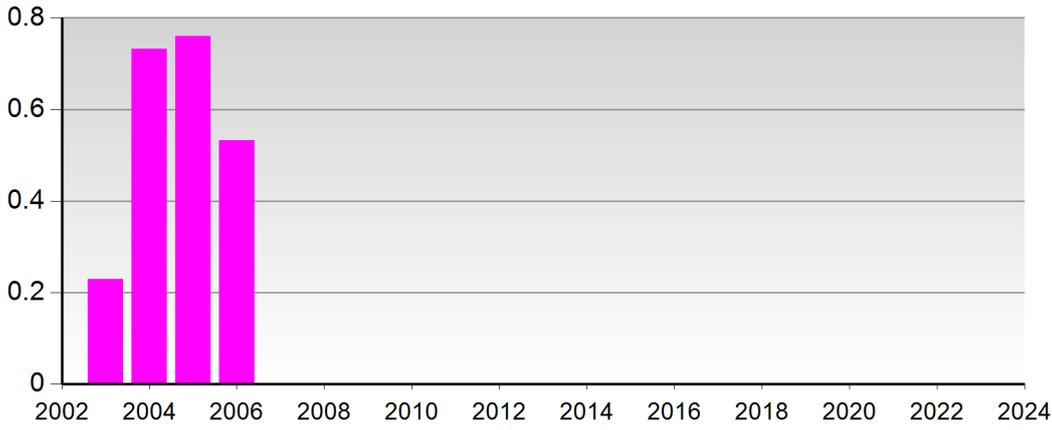

Net - gas [bill Sm3]

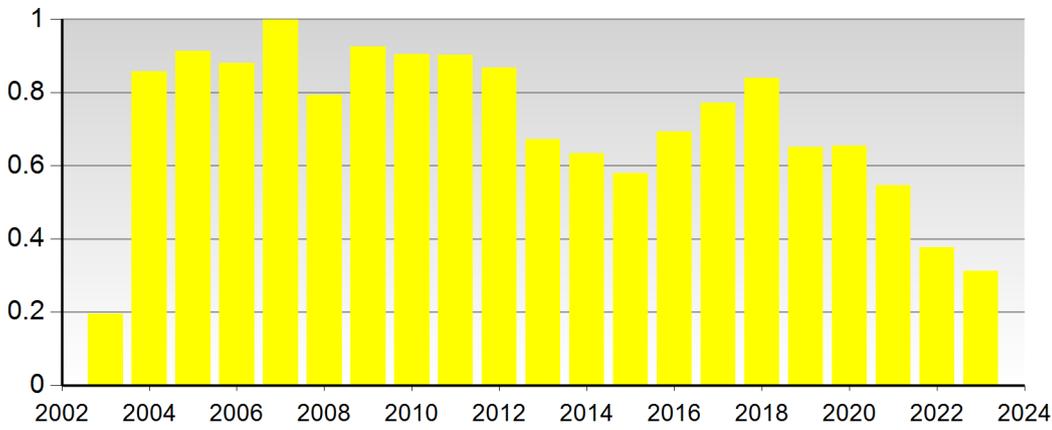

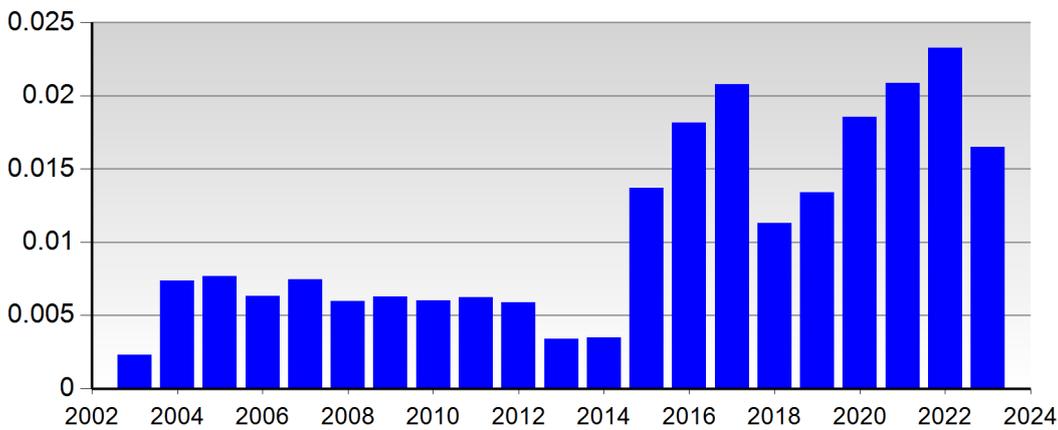

### Net - condensate [mill Sm3]

### Net - NGL [mill Sm3]

### Produced water in field [mill Sm3]

Any produced water is only included after 1.1.2000

## Wellbores - exploration

| Wellbore name            | Entered date | Completed date | Purpose   | Status | Content        |
